

# HADYN SLOANE-SEALE

---

## WSEU Technical Director

Hadyn Sloane-Seale assumed the role of **Technical Director** in April 2013.

Hadyn is a Winnipegger who proudly played for WSEU in his youth. He moved on to play with the Manitoba Provincial Team and then a Division 1 U.S. team where he spent two years as captain.

Prior to joining WSEU, Hadyn led the University of Manitoba Bison Women's Soccer Team as Head Coach (and before that as Assistant Coach). Before moving back to Winnipeg, he spent his time learning and honing his skills and philosophies with a Club and Universities in the U.S. running technical programs, training coaches and players (including fitness and strength training), coaching, recruiting, and running camps - all for players age 6 to adult. Hadyn holds a USSF A Coaching License.

"I am excited to be working with the Club where my soccer career began. I have now been at WSEU for four years and I feel extremely proud to be part of the most forward thinking Club in Winnipeg. There was a great foundation at WSEU when I started. The application of the five year plan that I embarked on back in 2013 is progressing well. There is always work to do. I feel fortunate to have a Board of Directors and Club members that believe in the direction we have set for ourselves. I look forward to continuing the work with Amy and Adam, our expanded technical and administrative team and everyone involved who works so hard on the goal of making this the best Club to be at in Manitoba," shared Hadyn.
